

Someday, you'll be able to download
all your memories for your family.

But until then, trust 11-Time
Emmy Award winning filmmaker
Keith Famie to create your
“It’s My Life” documentary.

*It's not just a film.
It's the meaning of your life.*

The lives you've touched with your love, wisdom and philanthropy comprise the meaning of your life. Undoubtedly, they are your greatest gifts to your family, community and society.

Telling that story so all those gifts are portrayed with the honesty, dignity and grace they deserve should only be trusted to an exceptional storytelling team, one that shares a true passion for telling other people's life stories. That's Keith Famie and his Visionalist Entertainment team.

After winning 11 Emmy Awards, you can be certain they know exactly how to capture the richness of your life through your family's historical photos and personal, in-depth interviews. When your *It's My Life* documentary is completed, your legacy, everything you could hope to pass on to your family and generations to come, will live forever.

*Every "It's My Life"
Documentary is unique.*

There will never be another you. So the movie we create about your life will be unlike any other we've made. We'll sit down with you and, together, we'll craft your personal story. Creatively, the possibilities are limitless. We can go anywhere in the world, to the places and people that made you who you are today. We can interview you while enjoying your hobby, relaxing on vacation, cooking in the kitchen or just visiting with the people who are important to you today.

“What an experience!”

We hear the same response from nearly every It's My Life documentary client: “That was one of the best experiences of my life.” That's purely intentional on our part from our professional lighting, sound and set design; to our use of aerial camera drones for exciting perspectives of your life, you'll feel like you're part of a Hollywood movie. It's an experience you and your family will talk about for years to come.

“It is difficult to even put into words the gratitude we feel towards you and your incredible staff of professionals. We never imagined my mom's idea of creating a movie of her life would have become this incredible documentary of her life.

The film you created is a testament to our moms love for life, determination, zest, wisdom, courage, and love for her family.

It will be watched for many generations to come. You captured the essence of our mom and we cannot thank you enough for this gift that we will all treasure forever.”

—The Sandler Family

About the filmmaker

Keith is a Director and Producer of primetime, award-winning documentaries for PBS, NBC and ABC. With his brilliant production team at Visionalist Entertainment Productions, Keith and company have earned 11 Michigan Emmys for their rich, human-interest storytelling. Keith also earned a Diamond Award by the Women in Communications Detroit Chapter for his 13-part series on aging.

From his ethnic documentaries, “Our Story Of” series, to the military tribute films such as “Detroit, Our Greatest Generation,” to “The Embrace of Aging,” a series that debuted on Detroit Public Television, Keith's work continues to touch, inform and entertain a wide audience.

“You helped me give my children and grandchildren a historical perspective to their lives and a renewed sense of pride in where they came from.”

—Anthony

The Big Event:

Premiere your film to family and friends.

After your film is completed, you may choose to host a private premiere screening to your family and friends at a local theater or private banquet facility. For these events, we often create movie-poster-size production photos of the people featured in your film to place around the room. We can also design specially printed programs containing your personal message and more photos to hand out at your premiere.

For more information, call **(248) 869-0096**
or visit **www.v-prod.com**
