

Options

We have three production options for you to review. Each one of these can be altered and customized for your personal needs.

Option One

A full day of filming two to three sit down interviews in your home or office. We will then need as many family photos or videos as you have so we can build your story.

Before this session, I will need to do a sit down interview with you about your life story.

Editing of your final film will take two weeks. You will receive ten copies of your DVD or Blu Ray in a personalized case and your final film will be placed on Vimeo with a secured password. Our production crew will consist of three to four people.

Cost: \$3750.00

Option Two

Same as option one with the addition of a separate day of filming at a location of your choice that is close to your first filming location. This day of filming could involve other family members, friends, or a special event.

Cost: \$6500.00

Option Three

This is a customized option that can include multiple locations filmed over time. These take time to plan. This may include filming family retreats, special celebrations, or several other interviews. Cost will depend on final production schedule.

Note: Air travel and accommodations would have to be applied where applicable.

It's My Life

Name:

Email:

Where you live:

Your age:

Why do you want to make this film about your life?

Do you have family photos of yourself dating back to your childhood? If so, what format are they in? (Prints, digital, etc.)

Do you have any videos or old films of your younger self? If so, what format are they in? (Film, digital, etc.)

What is some of your favorite music?

Which of the three production levels are you most interested in?
